

*Ascended masters are always amongst us,
Guardians and gifts of humanity.
Who have worked many millennia
From the unseen and seen, a plenty.*

ASCENDED MASTER SUPPORT

We simply cannot create a new world paradigm by ourselves without the support of higher God Power realms. We never could. Let us now share some basic Ascended Master wisdom's that are intended to offer love and support. Which ones do you resonate with and are ready to daily apply in creating a new reality?

- (1) Life is the one thing that produces manifestation; all energy is some form of life. How are you using your energy?
- (2) When your awareness/consciousness connects with something, your life integrates to that part of life, and you become one with it. Thus, we and all things are one when we are conscious.
- (3) Our lack of control of attention prevents manifestation. Maintain your focus.
- (4) Energy flows wherever your attention focuses it. Where is your focus now?
- (5) When we master the proper use of energy it will be through the mastery of our emotional and mental selves. Our thoughts and emotions create our reality.
- (6) Ascended Beings, once being human, have chosen to be more evolved conscious beings than we. Are you ready to become an ascended master?
- (7) War makers of the world do so through their deliberate misuse of energy. War simply does not work.

(8) When we finally understand the abuse and right use of power we shall evolve.

(9) We are just beginning to understand the Mastery of Self that is ours through our healed emotions and thoughts, and connection to We Consciousness/God Power.

(10) What cosmic shock is necessary to shake mankind from its creations? Do we need to be destroyed again to learn?

(11) Are we ready to accept and know there is life greater than the one in this world? And we need its support. We need God Power.

(12) Cosmic assistance (God Power) can and will be the greatest help in our attaining our ascension.

(13) Overcoming so-called Man Powered death is the greatest and last limitation for us to achieve as a species.

(14) When we overcome so-called death through our God Power our ascension will joyfully take place.

(15) The destiny of America, The Heart of the World, is the future of Man Power becoming God Power.

(16) We cannot rise out of our Man Power creation without the support of higher God Power realms.

(17) Oneness with your Divine Essence/ IAM PRESENCE/ God Power becomes the ever-lasting condition of our future lives.
