

Eight Sacred Principles Of Leadership

From: Council of Archangelic Realms (CAR).

Dear Humans Being Human,

At this time, we shall present *Eight Sacred Principles of Leadership* that are largely missing in your world, and are employed within advanced civilizations and higher realms. They will greatly assist you to move into a higher state of consciousness and allow your BEingness to create your doingness when you choose to employ these within your world.

1. Leaders need to be involved in a continuous process of self-mastery/knowledge. Most of your leaders today do not know their purpose in being here (who they are, why they are here) and are involved in selfish or controlling hidden pursuits.
2. Leaders need to fully know and apply the true nature/purpose of leadership: to be in compassionate world service. Most of your leaders today are all about the 'me' and not the 'we.'
3. Leaders need to apply the concepts of Unity Consciousness, knowing the interconnectedness of all things into Oneness. Your present leaders are largely not aware of the integration of all things on this planet; what affects one, affects all.
4. Leaders need to know their home planet is a living, conscious being and they are stewards of their home. With all your concern about weather change and energy alternatives, who is speaking of this?
5. Leaders apply learned knowledge into wisdom by knowing what has not worked in the past. Your present leaders still believe killing one another in war and attempting to control what you did not create is acceptable.
6. Leaders know how to create conscious teams to manifest new realities. Your leaders today do not know how to effect collective positive change for all, realizing change is all there is.
7. Leaders know no one individual is in charge and understand the nature of pluralism. Your present leaders are often motivated by individual greed, wounds and ego defenses.
8. Leaders need to fully understand, be responsible, and accountable for their actions. Many of your leaders today are working within fear, doubt and ignorance.
